

One-Time Repairs

We provide several first-time repairs for your home. Your Homeowner Manual lists these under individual headings such as drywall and grout in the Caring for Your Home section. We provide this service as a courtesy and to give you an opportunity to observe methods and materials needed for ongoing maintenance of your home.

Only ONE one-time repair request per home during the warranty period please. We suggest sending this in near the end of the first year to maximize the benefits you receive. Simply complete and mail or fax this form to our office with your year-end warranty list. Thank you!
